

RELIABLE POWER FOR REMOTE HOMESTEADS

A Florida Homesteader Finally Broke Free from
the Utility Grid

THE CHALLENGE

- Sky-high Florida utility bills draining monthly income
- No electrical service at the homestead site
- Limited access to water without reliable well power
- Heavy-duty tools required daily power
- A clear desire for long-term energy independence

THE SOLUTION: OFFGRID PRO™

- High-capacity 9792Wh system with 7200W peak output
- Solar-ready for full off-grid living
- Powers well pump, tools, and daily essentials
- Designed for continuous, heavy-use environments

FULLY SOLAR-COMPATIBLE

POWERS WATER WELLS RELIABLY

SUPPORTS THE HOMESTEAD

REDUCES UTILITY BILLS

"This is exactly what I needed. I can power my well and everything else on my property without relying on the grid. It's freedom."

- David Nardin, Florida Homesteader
