

# SILENT, STRESS-FREE POWER FOR STORM SEASON

A St. Pete Homeowner Replaced a Loud Gas Generator with  
Silent, Fume-Free Power

## THE CHALLENGE

- A loud gas generator made storm prep stressful
- Noise was unbearable for his wife
- Exhaust fumes made it unsafe near the home
- Limited runtime and frequent refueling
- Messy, smelly operation during outages

## THE SOLUTION

- Silent, storm-ready backup power
- No engine noise, no fumes, no fuel
- Safe for indoor use anywhere in the home
- Long runtimes compared to gas generators
- 9792Wh capacity | 7200W peak | Solar-ready

## REAL-WORLD BENEFITS

- Refrigerator powered for 55+ hours
- WiFi online for multiple days
- CPAP powered for up to 14 nights
- Portable AC for 12–14 hours

## THE RESULT

- Quiet operation during every storm
- No fumes, no stress
- A calmer home
- A happy spouse—and happy neighbors

This system made  
my wife very happy  
during hurricane  
season. Happy wife,  
happy life!
